CCDC Inject

INJECT NAME	Software Acquisition Check List
INJECT ID	SOFT07A

INJECT DESCRIPTION:
The organization is planning on upgrading their business software portfolio with newer software and SaaS products. The CIO would like a checklist document to guide them in the evaluation and selection process. The check list should include technical, information security and contractual/licensing elements. Write this within the context of the organization exercising due diligence.

INJECT DELIVERABLE
Respond with a business memo with the check list along with an explanation of the elements as needed.
